PREFACE

This publication was developed in response to the many requests for information on horses that have been received by the Science and Education Administration--Extension Staff of the U.S. Department of Agriculture and by the State Cooperative Extension Services.

It lists private organizations, State governments, and Land-Grant Universities--State Extension Services in the United States that have publications, visual materials, or resource persons that may be consulted for information on horses. The publications and visual materials available are listed as provided by the source organization, or a notation is made that no information was provided.

This reference is intended for use by colleges, universities, researchers, Extension personnel, 4-H adult leaders, and others who are interested in educational materials on horses. It will be updated biennially. If you have additional listings, please send them to us.

DIXON D. HUBBARD

Program Leader, Animal Science
Science and Education Administration--Extension
U.S. Department of Agriculture
Room 5525--South Building
Washington, D.C. 20250
Telephone: (202)447-2677

Reference to commercial firms, trade products, or company names is only for identification and does not imply endorsement by the U.S. Department of Agriculture. Inclusion of these references in this listing implies no approval of their products to the exclusion of others which may also be suitable, and the Department neither guarantees nor warrants the standards of the products.

The Science and Education Administration of the U.S. Department of Agriculture offers its program to all eligible persons regardless of race, color, sex, religion, age, handicap, or national origin, and is an Equal Opportunity Employer.

October 1980

WILLMAN, H. A.
14 Sheraton Drive
Ithaca, NY 14850

PHONE: 607/257-2808

VISUALS: A basic set of 25 slides on judging horses on conformation
was developed in 1966 by Professor Emeritus H. A. Willman (former
Cornell University 4-H Livestock Specialist). In 1975, he revised it to
include new practice classes and 50 additional illustrations of common

VISUALS -- Continued

faults and desirable qualities. Accompanying this set, are lecture notes outlining methods of teaching judging and suggests ways of using the slides.

Each year since 1966 a supplemental set of five slides have been added to the basic set. Each supplement contains five placeable classes of four horses. Furnished with each set are suggested placings, a scoring key, and reasons.

1966 (Rev. 1975)	Nos. 01-25	1974 supp. 8	Nos. 61-65
1967 supp. 1	Nos. 26-30	1975 supp. 9	Nos. 66-70
1968 supp. 2	Nos. 31-35	1976 supp. 10	Nos. 71-75
1969 supp. 3	Nos. 36-40	1977 supp. 11	Nos. 76-80
1970 supp. 4	Nos. 41-45	1978 supp. 12	Nos. 81-85
1971 supp. 5	Nos. 46-50	1979 supp. 13	Nos. 86-90
1972 supp. 6	Nos. 51-55	1980 supp. 14	Nos. 91-95
1973 supp. 7	Nos. 56-60	1981 supp. 15	Nos. 96-100

Regarding the slides, they have become popular time and travel savers and have helped many leaders, teachers, and coaches who have found it difficult to locate farms and stables where classes of different breeds are available. Furthermore, the horses used in the slide classes usually differ widely enough in conformation to enable students to make clear cut comparisons on such points as correctness to the set of feet and legs, style, quality, character, cleanness in the throat latch, length of neck, sharpness at the withers, turn of top and croup, depth of rear flank, muscling, quality of bone, and overall balance.

The supplemental sets carry the classes that have been successfully used in an annual Eastern pictorial horse judging program and contest. Each year, thousands of people try their skill in judging the classes, and hundreds of local 4-H leaders and program advisors have been using the classes for general instruction and training of judging teams.

With the production and release of a supplement each year, this horse judging series will comprise 100 slides by January 1, 1981. In ordering slides, purchasers should specify the sets desired by years, as 1966 (rev. 1975), 1967, 1968, and beyond. For example, orders placed in 1978 may include those from 1966 to 1978 inclusive but not those for 1979-1981. While each current year's supplement will be available on January 1, the suggested placings and scoring key will not be released until May 1 of that year. The 1966 set (rev. 1975) is priced at \$15, and the supplemental sets are \$5 each, postpaid.

Ninety-two horse books are available on a loan basis from--

Life and Health Sciences Library
College of Agriculture
University of Nevada
Reno, NV 89507

A complete listing of these books is available upon request.
Only a minimum number of these books can be loaned at one time
since they are also used for class instruction. Numbers of
books available by category are as follows:

Breed of Horses (7)	Horse Psychology (3)
Horse Breeding (3)	Horseshoeing (4)
Horse Guides & Handbooks (6)	English Riding (10)
Horse Health (13)	Western Riding (10)
Horse History (3)	Horse Nutrition (2)
Miscellaneous (31)	

Books will be sent prepaid. However, it is the borrower's
responsibility to pay postage and insure the books for \$20
at the library material rate when returning them. Return
address labels are provided for your use.
